
Content

1. Permanent Reservoir Monitoring with Onshore Surface Seismic.....**Kees Hornman Jay Hwang** (1)
2. Log Resistivity Measuring Devices Compared to S-waves from a Vertical-Force Source——VSV/VSH Ratio in Identification of Fracture Sweet spots in Densely Fractured Reservoirs.....**John M Robinson** (6)
3. Development of new Resistivity and Gamma LWD techniques for Drilling Unconventional Oil and Gas Wells.....**Paul Sinclair Anzong Li,et al** (9)
- 4.The Lacustrine Carbonate Reservoir Logging Evaluation Using NMR Logging Founded Microscale Parameters.....**Lianshuo Li** (24)
5. Robotic Logging Technology and the Special Case of Electronic Casing.....
.....**Nitin Lahkar, Rishiraj Goswami** (31)
6. A New Logging Evaluation Technology of Ordovician Fractured-Vuggy Carbonate Pay Formation in Yingmaili Area, Northern Tarim Basin.....**Chengwen Xiao, Chengsen Zhang, Bo Zhou,et al** (36)
7. Analysis and Application of Hydraulic Fracturing Monitoring Data.....
.....**Jiayuan He, Qing He, Rusheng Zhang,et al** (43)
8. The Application Of Dynamic Monitor Technique in Casing Damage Diagnosis in Tarim Oilfield.....
.....**Tao Wang, Shenglai Yang, Weihong Zhu,et al** (48)
9. The Application of Numerical Well Testing in Injection-production Patterns of Mongolia Block.....
.....**Jingli Sun, Mingtao Yang, Weiwei Liang** (52)
10. New Method for Calculating Bottomhole Pressure from Acoustic Liquid Level in Pumping Wells.....
.....**Lihua Wu, Yuewu Liu, Hua Chang, Shujing Li** (57)
- 11.Well Selection Research of Profile Control for Double-Step Ultra-Deep and Ultra-Thin Horizontal Well.....**Weihong Zhu, Shenghe Wu, Tao Wang,et al** (66)
12. Implementation of Artificial Neural Networks to Determine Enhanced Oil Recovery Method.....
.....**Anas Puji Santoso, Edo Pratama** (70)
13. Analysis on Factors Effecting Horizontal Well Multistage Fracturing Productivity of Low Permeable Reservoir.....**Kefeng Yang, Fengxia Li, Changyin Liu,et al** (76)
- 14.The Heterogeneity and Propagation of Pressure Wave from Low Permeability Gas Field.....
.....**Leng Tian, Kaiqiang Zhang, Huajun Hu, Zhicheng She** (80)

-
-
15. Research on The Deployment of Wells of Small Complex Fault-Block Reservoir Oilfields in T Oilfield
.....**Yinghui Zhang** (85)
 16. A New Model and Its Simulation Software Development for Surfactant/Polymer Flooding.....
.....**Xiansong Zhang, Chunyang Lin** (90)
 17. Mechanism Research of Numerical Simulation for Low-permeability Reservoir in Daqing Peripheral Oilfields
by Considering Stress Sensibility and Kick-off Pressure Gradient.....
..... **Zuoqian Wang, Shunv Huang, Guifang Fa, et al** (95)
 18. Research and Application of Fire Flooding by Electric Ignition Technology.....
.....**Kui Ning, Hongtao Zhang, Fuguo Wang, et al** (104)
 19. The Ignition Program Design of Preheating by Steam Injection during In-Situ Combustion.....
.....**Haiyan Jiang, Zhaoxun Jin, Shibao Yuan, et al** (109)
 20. Infrastructure Asset Management in Natural Gas Distribution Networks.....**Veysel Turkel** (113)
 21. Research on Automatic Water Injection Technology of Digital Water Injection Station.....
..... **Yanrong Chang, Ruxian He, Shouhu Wang** (120)
 22. Application of Wavelet Threshold De-noising Method in Processing Sanding Signal of Oil Wells.....
.....**Nan Song, Ruirong Dang, Jingjing Xu** (125)
 23. New Features and Technologies in LWD-RTDI Data Platform.....
.....**Xinglong Ju, Qifeng Sun, Fuwang Song, et al** (130)
 24. The Application Researches and Practice of GIS on Digital / Intelligent Oil Field.....
.....**Chengfang Li** (134)
 25. The Research And Application of real-Time Data Remote Transmission for LWD/MWD.....
.....**Qifeng Sun, Hongqiang Li, Youxiang Duan, et al** (142)
 26. Design of Fracturing Curve Data Remote Real-time Transmission Methods.....
.....**Zhiqiang Yan, Xiaolin Qiu, Kuisheng Zhang** (147)
 27. The Technology Research of Intelligent Production Engineering System for Oil&Gas.....
.....**Chaodong Tan, Hongyu Wang, Guishan Ren, et al** (152)
 28. New Method of Calculation of Pipeline-Span Deflection Restrained in Ground.....
.....**Oleg Nazarov, Gennadiy Korobkov** (157)

29. A Technique of Recovering Subsea Pipeline Buried in Silty-Sand.....	
.....	Fuen Zheng (164)
30. Lighting Stroke Damage Analyze and Response Measures on Data Acquisition System.....	
.....	Deng Pan, Xin Wen, Guanglian Yang,et al (170)
